CIQ TOLL

“Cabinet yesterday (6 Aug) took great consideration of the public feedback on the implementation on the toll at Customs, Immigration and Quarantine Complex, Bangunan Sultan Iskandar (CIQ BSI) Johor Bahru and will be taking steps to find ways to help improve and boost the use of public transport as this will reduce the impact to users.

This will be undertaken by SPAD working closely with Ministry of Works, Ministry of Transport and the State Government of Johor.

The impact on businesses will be assessed to address the concerns of businesses especially in Johor Bahru as it is too early to conclude on the impact without proper data.

The Deputy Prime Minister will chair a special meeting soon on this to ensure that solutions decided upon are holistic.”
